EDUCATION

- NCRD's Sterling Institute of Management Studies**
Master of Computer Applications (MCA) – University of Mumbai
 - Jnan Vikas Mandal's (JVM's College)**
Bachelor of Science in Computer Science (B.Sc. CS) – University of Mumbai
- Nerul, Navi Mumbai
2024 - 2026 (Expected)

Airoli, Navi Mumbai
2018 - 2021

SKILLS SUMMARY

- Languages:** Python, Java, JavaScript, R Programming, HTML5, CSS3, SQL
- Frameworks:** Node.js, Express.js, NLP APIs
- Tools & Tech:** Figma, Tableau, Power BI, Cybersecurity, NLP, Full-Stack Development
- Soft Skills:** Problem Solving, Troubleshooting, Logical Thinking, Decision Making, Leadership

EXPERIENCE

- Ada Lovelace Technologies**
UX Designer & QA Tester Intern
- Navi Mumbai, India (On-site)
Jan 2026 - Jun 2026

 - UI/UX Design & Usability:** Evaluated application interfaces and optimized user journeys through wireframes, layouts, and usability analysis to ensure a seamless end-user experience.
 - Prototyping & Collaboration:** Designed responsive layouts and interactive prototypes in Figma, managing handoffs to developers by maintaining design guidelines and accessibility standards.
 - Testing Processes & QA:** Led functional, validation, and regression testing for web portals and mobile apps (e.g., Faciligent, Career Yatraa), drafting manual test scenarios and maintaining the master bug tracker.
 - Validation & Quality Control:** Conducted end-to-end user acceptance testing (UAT), verified API constraints, and documented defect proofs to accelerate developer resolutions.

PROJECTS

- AI-Based Phishing Detection and Risk Analysis (Python, HTML, CSS):** Developed an intelligent Phishing URL Detector to identify and classify malicious hyperlinks, mitigating cyber threats like identity theft and credential harvesting. Features a Python backend and HTML frontend. (Apr 2026 - Jul 2026)
- Resume-ATS-Checker (Python, NLP API, Web Dev):** A full-stack web application designed to optimize resumes for Applicant Tracking Systems (ATS). Extracts text from uploaded files (.pdf, .docx, .doc) and uses the APILayer NLP Resume Parser API to analyze and score resumes. (Mar 2025 - Mar 2025)
- Anime Streaming App - Kuro Neko (UI/UX):** Designed and developed a user interface and user experience for a dedicated anime streaming application. (UI/UX Design)
- Personal Portfolio (HTML, CSS, JavaScript):** A responsive personal portfolio website built using HTML, CSS, and JavaScript with smooth navigation and a contact form integrated with Formspree.
- Responsive Admin Dashboard - DashForge (HTML, CSS, JS):** A clean and responsive admin dashboard UI featuring sidebar navigation, sales/expenses/income stats, progress indicators, recent orders, dark/light mode toggle, and user profile display.

CERTIFICATIONS & BOOTCAMPS

- Build with AI Bootcamp (Google for Developers):** Hands-on intensive bootcamp focused on Agentic AI and Google Antigravity. Built and experimented with autonomous agent-based workflows to solve real-world problems. (Mar 2026)
- Python Specialization (Coursera):** Comprehensive specialization covering programming fundamentals, data structures, and web scraping with Python.
- Data Analyst Specialization (Coursera):** Focused on data visualization, statistical analysis, and data cleaning techniques using Python and SQL.
